Product Descriptions

The Ashly GQX-3102 is a graphic equalizer that features two channels of 31-band 1/3-octave EQ, a tunable high-pass filter circuit (8Hz to 200Hz), a switch-selectable cut or boost of either 6dB or 15dB. The full-throw faders are a custom-manufactured metal-shaft type, with the center detented position utilized as an "on/off" switch for that filter (to minimize any possible degradation in signal noise levels). and 10-segment, two color LED meter displays, referencing 0 VU to +4dBu.The GQX models are designed to be significantly quiet without the need for noise reduction to be built into the equa
